

Quick How-To for: [PayDotCom.com](http://PayDotCom.com)

### Intro:

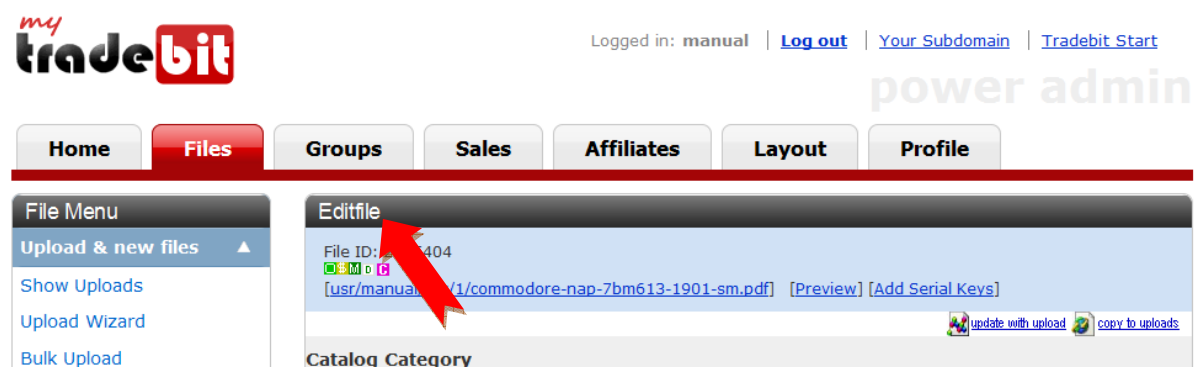

PayDotCom.com is a payment method with an integrated affiliate network. They basically add the reseller and promotion power of affiliates to the paypal payment (like Tradebit does, too) but focus more on the building of large affiliate networks. Tradebit uses PayDotCom.com as an alternative way to accept payments.

### 1. Step: Getting started

Register files with Tradebit as you would without any other options. Once you are done, you should switch on Tradebit to the power admin mode by clicking the the grey “easy admin” picture in the upper right (you do not need to do that, if you are already in power mode):

Then list your products (files) and edit the one you want to add to the PayDotCom network:

If you scroll down, you will find an input field for your PDC file id:

/merchant:paypal.php/110/3/1pn->

Your paypal cart code: `<form action="https://www.paypal.com/cgi-bin/webscr" method="post"> <input type="image" src="http://www.tradebit.com/images/2cart.gif" name="submit" alt="Make payments with" </form>` [add 2 cart](#)

Google Checkout: `<a href="http://www.tradebit.com/indexNew.php/paymentarea/googleCheckoutWithOneItem/2085404" title="1901 Service Manual COMMODORE NAP-7BM613 MONITOR"><img </a>` (Button for your homepage)

PayDotCom file ID: File ID:   
 (The ID provided by PayDotCom for your file - please check the rates for provisions for them to set your price right!)

**Payment options**

\* only public and private files can be sold, your paypal address has to be valid!  
 \* A price of ZERO defines NOT ON SALE...

In order to obtain that, we have to prepare the file on PayDotCom AND on Tradebit.

## 2. Step: Check the secret word!

PayDotCom will give you a secret word in your product registration, that you need to register on Tradebit under SALES -> PayDotCom:

my **tradebit** Logged in: manual | [Log out](#) | [Your Subdomain](#) | [Tradebit Start](#)

power admin

Home Files Groups **Sales** Affiliates Layout Profile

**Sales menu**

- Stats & Numbers ▲
  - Sales Log
  - Current Month
  - Fee to pay
  - Products/Month
  - Files on sale
- Download Options ▲
  - Create Shortlink
  - List Shortlinks
  - Manual Ebay config
- Sales Specials ▲
  - Affiliate codes
  - Google Check-out
  - Paypal config
  - Open paypal
  - Clickbank
  - PayDotCom

**Paydotcom**

Paydotcom config

Option:  
 Enter your PayDotCom secret word:  In order to use [PayDotCom](#) you need to give us your secret word:  
 (You use this, when you enter new products on PayDotCom. For simplicity, always use the same word - we will enhance this later ...)

**Some help and hints:**

- Add the IDs to your products for PayDotCom: Each product you want to sell via PayDotCom needs to have that product ID, which is provided after the product was setup there, entered here in your product detail page.
- Call up the detail page of your product with an "/pdc" at the end of the detail URL - that looks like that:  
 http://www.tradebit.com/filedetail.php/1861557/pdc  
 The number in the URL is your file id on **tradebit**! You need this URL to register products with PayDotCom!

**You must register the product on paydotcom.com first and add the ID in the file edit page then!**

Do not forget to add your [personal IPN URL](#) to the registered file on paydotcom:

That secret word is set up AFTER the basic product registration on PayDotCom with the payment options:

### Payment Settings [\(hide details\)](#)

Set the payment options for the product

<input checked="" type="checkbox"/> <b>Promote product using Paypal</b>	
<b>Paypal Email:</b>	<input type="text"/> <small>This is the paypal email that will be used to sell the product. You can use different emails for different products. If left empty the paypal email in your profile will be used</small>
<input type="checkbox"/> <b>Promote product using Authorize.net</b>	
<a href="#">Show How To Video</a>   <a href="#">Download Checklist</a>	
<b>CC Email No.1:</b>	<input type="text"/>
<b>CC Email No.2:</b>	<input type="text"/>
<b>If Subscription:</b> <input type="checkbox"/>	<small>Send CC Emails only on initial sale, not recurring. (This is good for physical products so that the fulfillment company is not notified on all payments if you are using payment plans, otherwise they will ship a product on every payment.)</small>
<b>Price:</b>	\$ 7.95
<input checked="" type="radio"/> 1 payment <input type="radio"/> Recurring with trial amount <input type="radio"/> Recurring all payments the same <input type="radio"/> Payment Plan with trial (Ends after Certain Payments) <input type="radio"/> Payment Plan with all payments the same (Ends after Certain Payments)	
<input type="checkbox"/> <b>Add a second trial</b>	
<b>PayDotCom Custom IPN Script</b> ? <a href="#">Developers Guide (PDF)</a>	
<b>IPN URL:</b>	<input type="text" value="bit.com/paypal/merchantpaypal.php/11679/ipn/en"/> <small>This is the URL of your custom IPN script</small>
<b>IPN Secret Code:</b>	<input type="text" value="example"/> <small>The secret code for you IPN custom script</small>
<small>When PayPal posts information to PayDotCom related to a transaction that took place you have to option to receive that info as well. By filling the IPN URL PayDotCom will send information to that script about the transaction. If you do not wish to use this feature leave the IPN URL empty. If you decide to use it fill in both URL and Secret code.</small>	
<input type="button" value="Save"/>	

To get there, you have to register the product first:

My Account | My Sales | **My Products** | Manage Affiliates | Promote Products | Inbox (0)

[View/Edit My Products](#) | [Payment Buttons](#) | [My Product Promotion Tools](#) | [Promote My Products](#)

[Create A New Product](#) | [Create A New Cart](#) | [Activate/Deactivate](#) | [My Product Sales](#) | [Edit Affiliate Pages](#)

**Click here to reduce your fees by 20% or more**

**Add new product**

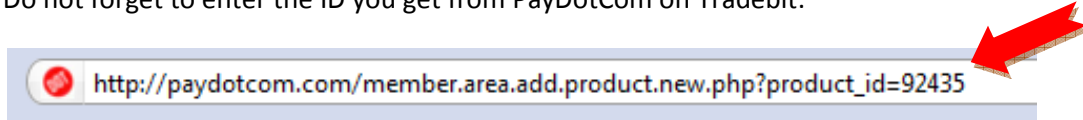

### Basic Product Settings [\(hide details\)](#)

Setup basic product information: title, description, sale & thank you page

<b>Product Title:</b>	1901 Service Manual COMMODORE Monitor <small>This is the product title that shows in the marketplace and on the order page</small>
<b>Product Description:</b>	Are you frustrated with spending lots of dollars on your <small>This is the product description which shows in the marketplace for your product</small>
<b>Product Salespage:</b>	http://www.tradebit.com/filedetail.php/2085404/pdc <small>This is the page where your product is sold from, it used to redirect visitors when an affiliate uses his link</small>
<b>Product Thank You Url:</b>	http://www.tradebit.com/paypal/mythankyou.php <small>On succesfull purchase of the product the member is redirected to this page to download or receive what he purchased</small>

Here you also see the the URL that does the trick, once you registered the file: You will just add an /pdc at the end of the file ID on Tradebit!

Do not forget to enter the ID you get from PayDotCom on Tradebit:

To:

Your paypal cart code:	<code>&lt;form action="https://www.paypal.com/cgi-bin/webscr" method="post"&gt;</code> <code>&lt;input type="image"</code> <code>src="http://www.tradebit.com/images/2cart.gif"</code> <code>name="submit" alt="Make payments with</code>	<input type="button" value="add 2 cart"/>
Google Checkout:	<code>&lt;a href="http://www.tradebit.com/indexNew.php/paymentarea/googleCheckoutWithOneItem/2085404" title="1901 Service Manual COMMODORE NAP-7BM813 MONITOR"&gt;</code>	(Button for your homepage)
PayDotCom file ID:	File ID: <input type="text"/> (The ID provided by PayDotCom for your file - please check the rates for provisions for them to set your price right!)	

**Payment options**

- \* only public and private files can be sold, your paypal address has to be valid!
- \* A price of ZERO defines NOT ON SALE...

Once you are done, you should see on the page the alternate payment button on the detail page:

The screenshot displays the TradeBit website interface. At the top left is the TradeBit logo with the tagline 'upload.publish.sell'. The top right shows the user 'manual' is logged in, with links for 'MyTradeBit / Log Out' and a shopping cart containing 0 items. A search bar is present with the text 'Power search in all categories enter keyword search'. Below the search bar are navigation tabs: 'Start', 'Browse Files', 'Publish/Sell', 'My Purchases / Support', 'Forum', and 'About'. The main content area is split into two columns. The left column, titled 'File Download', shows the price '7.95 USD', an 'Instant Download' button with the 'Pay.com' logo (highlighted by a red arrow), a 'PayPal VERIFIED' badge, and file details: 'Size: 1.2839 MB' and 'Platform: Win'. The right column, titled '1901 Service Manual COMMODORE NAP-7BM613 MONITOR', includes an 'Admin your file: [edit]' link, breadcrumb navigation '» Documents / eBooks » Page 1914', and a 'Documents / eBooks' link. It features a drawing of a monitor, 'Product Features' with checkmarks for 'Review(s)' and 'Description', and 'File Data' showing 'Contact Seller: manual, Member since 05/10/2006' and a URL.
