Dear Friend,

If you've been doing business on the Internet for any amount of time, you probably eat, sleep, and breathe the word advertising.

How do I advertise?  
What is the most effective form of advertising?  
Why is my advertising so ineffective?  
How can I advertise to double my profits?

Advertising, advertising, advertising...it is the cornerstone of our business!

The most effective form of advertising is eZine advertising...it is a fact.

For years, my clients and I made huge profits placing ads in eZines, with the best results obviously coming from solo advertisements.

Then one day, a light bulb popped on in my head...and I realized that even though I am advertising successfully, I am still not using eZine advertising to its fullest potential!

I hate generalizations, but I've noticed a growing trend in relation to eZine advertising. This trend involves solo ads, and that solo ads are THE best form of eZine advertising.

Well, this is not entirely true, and *eZine Success* **will prove them wrong!**

Solo ads are not the only option, and are certainly not the most profitable one.

## **Have I caught your attention yet?**

**Do you want to get at least 5 times the results that you would get from a single solo ad and for a fraction of the cost?**

*I thought so.*

**Steven,**

**I don't usually write to ebook authors but after reading *eZine Success* I had to contact you and tell you how much I learned from it. I am just starting the eZine advertising portion of my marketing campaign and you have readily compiled every thing I needed in one eBook! I have been successful in internet marketing now for over 5 years and I am quite confident that if I would have had this information when I started my net profits would be thousands more than what they are! I'm off to take advantage of what I have learned.**
