Dear Fellow Internet Marketer!

You just can't be in any online business today without somehow stumbling across Clickbank.com, which is by far one of the largest and biggest product network sites on the net.

At any given time this monster-mall of affiliate products is offering over ten thousand items to promote!

In turn these products are marketed to the world at large by an excess of over 100,000 active affiliate sales people, many who are expert professionals that make their living exclusively by selling for Clickbank.

One of the most interesting things about Clickbank is that it is like a creaky old ship that has launched a thousand online marketing careers. It is the place where you find the most beginners in marketing because it is so easy to use. It is also a non-discriminatory and cheap place to start up an affiliate business and the site itself has great online assistance and pays both affiliates and publishers in an expedient and fair manner.

Many people who have had absolutely no experience marketing at all got their first virtual experience selling by marketing products on Clickbank.

The reason I decided to write a book about Clickbank is because one of the biggest mistakes that most beginners make when they first enlist with the site is "leaving it to fate" when they pick products to promote.

To make money on Clickbank it is best to have a bit of strategy when it comes to picking products that will sell. The plain truth is that some are better sellers than others but these products may have been exploited by another affiliate already - to the extent that you don't have a chance of making a great deal of money!

So in a nutshell, the two main keys to opening the vault to Clickbank success are:

- 1) know how to choose a non-exploited product or service that will sell
- 2) know how to attract targeted traffic using artful promotional techniques!

These two keys to Clickbank success are discussed thoroughly in **Exploiting Clickbank for Fast Profits**.

However, because I wrote this eBook for beginners as well as advanced marketers I leave no stone unturned and start from scratch by --

However, your Clickbank-based business is never really going to get past square one unless you focus on two things.

First of all you have to build your business in the correct manner.

If you don't do so, you set yourself up for long-term affiliate marketing failure from the beginning.

Secondly, with your business properly established, you need to promote that business in the most effective manner.

You can have the most sophisticated product in the world sold from the most attractive website ever seen and you'll never make a single penny if people do not know where you are or what you have to offer!

In Exploiting Clickbank for Fast Profits I acknowledge that there is both a wrong way and a right way when it comes to Clickbank promotion. These good, the bad and ugly ways of promotion are discussed in my eBook including such issues as -

- ✔ How to write an amazing sales letter that works with your unique affiliate link to send customers to your Clickbank landing page...

... And a lot more information about the time, effort, expense and commitment it takes to create a truly profitable business based on Clickbank's affiliate products.

Building huge Clickbank profits is something that takes time and focus and without building your business properly from the beginning, it is never realistically likely that you are ever going to see very much more than moderate profits (or more commonly, no profits whatsoever) from your efforts.

This is both tragic and silly, because if you build your business correctly or if you decide to follow the normal affiliate marketing route of sending visitors directly to a product sales page, the amount of time and effort you have to put into your business is pretty much the same.

As long as you have a system or process set up to maximize the profitability of your business from the beginning you can make oodles of money on Clickbank!

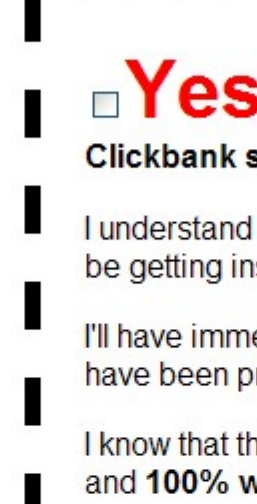

Set up your business for long-term success as a Clickbank affiliate!
